

Paducah GO Soccer Scholarship Guidelines

We understand that families may face unexpected challenges, which is why Paducah GO Soccer offers this scholarship—to ensure that financial hardship does not prevent a child from participating. To keep the scholarship program fair and available to all children, recipients and their families are expected to follow the participation, school attendance, conduct, and communication guidelines outlined below. These expectations are intended to support each child's success both on and off the field.

The scholarship covers the full \$75 registration fee. It is intended for children who would otherwise be unable to participate because of the cost.

Who can receive a scholarship

- **Grade and school:** The child is enrolled in grade k-12 at a public school in Paducah or the surrounding area.
- **Financial need:** A parent or guardian confirms that paying the \$75 fee would be a hardship. No detailed financial records are required.
- **Registration:** The family completes the scholarship request and all regular player registration forms.
- **Availability:** Scholarships are awarded while scholarship funds and team spaces are available. One scholarship may be awarded per child, per season.

Scholarships are not based on soccer ability, school grades, or prior playing experience.

Guidelines for continuing through the season

- **School attendance:** The child should maintain at least 80% attendance in school. Excused absences for illness, disability, family emergencies, or other approved reasons will not count against the child.
- **School conduct:** The child should make a reasonable effort to learn without becoming an ongoing disruption to themselves or others. An isolated incident will not automatically affect the scholarship, but a continuing pattern identified by the school may require a family meeting and improvement plan.
- **Respect:** The child should behave respectfully toward parents and guardians, teachers, coaches, officials, teammates, and other families.
- **Soccer participation:** The player should attend practices and games regularly, with a goal of attending at least 75% of scheduled activities.
- **Communication:** A parent or guardian should notify the coach when the player will be absent. If the player has two consecutive unexcused absences, the program will contact the family to see whether help is needed.
- **Inactive players:** If the player stops attending and the family does not respond after reasonable contact attempts, the program may release the roster spot to another child.

A scholarship will not be taken away because of an illness, emergency, transportation problem, disability-related need, or another reasonable hardship when the family communicates with the program.

Family acknowledgment

By accepting the scholarship, the family agrees to make a good-faith effort to help the player participate for the full season and to stay in contact with the coach.
